## Product Description

Block Turner

Block Turner

[Request a quote](#)

The Hedel Block Turner is a piece of equipment made of carbon steel, with robust mechanics, in addition to being simple, it is easily accessible to parts that require maintenance. The Block Turner is an indispensable equipment for tipping blocks from 0 to 90 °, its operation is safe and fast, ensuring that blocks of sensitive materials that cannot receive impacts, are turned without cracks or breaks. It has speed variation to work smoothly according to the block size. Differentials: Greater operational security; Optimization of the operational process reducing costs and risks of cracking the block.

### Technical specifications

- Load Capacity: 45 Tons.
- Rotation Capacity: 0 to 90°.
- Engine Power: 4 CV.
- Installed Power: 3 KW.
- Supply Voltage: 380 V.
- Equipment Dimensions: 152 x 332 x 310 cm.
- Length of the Stone Support Base: 2 meters.
- Width between Support Base Centers: 1.25 meters.
- Approx. Equipment: 3,400 kg.

## Product Description

FIVE WIRE FIXA The system is accompanied by a block carrier cart. MOBILE FIVE WIRE Equipment mounted on motorized wheels that slide on rails. Allows programming to cut blocks in sequence. FIXED AND MOBILE FIVE WIRE It is the combination of the previous models in a single equipment, practicality and agility with two simultaneous cutting systems. Five Wire has as its concept the versatility, it can be used to square blocks as well as to saw sheets, its control panel is fixed on the machine itself providing security and agility in the operation. The mobile equipment has an easy-to-operate automation system that allows automatic cutting programming. AVAILABLE IN 3 SETTINGS: FIVE WIRE FIXA The system is accompanied by a block carrier cart. MOBILE FIVE WIRE Equipment mounted on motorized wheels that slide on rails. Allows programming to cut blocks in sequence. FIXED AND MOBILE FIVE WIRE It is the combination of the previous models in a single equipment, practicality and agility with two simultaneous cutting systems.
